

Don't forget ...

to use the Excel file we sent you for your half-yearly **reporting of sales** to NCB. This also goes for film producers.

Please comply with our standards when filling in the file, and remember to use the approved terms when indicating "type of outgoing" and country codes.

Make sure that your sales report has reached NCB by **Monday 9 February** at the latest – and there is no excuse.

Covermounts and premiums – rates & application form

All tariff rates, information and application form for covermounts and premiums are now available at www.ncb.dk under the menu item of [[covermounts & premiums](#)] <- click this link to go direct to the page.

As we told you in our info dated 8 January 2009, covermounts and premiums now have to be reported and paid for separately to our department for "Recording Licences". Reporting and payment must be effected before copies are manufactured and released.

This implies that the reporting of such products should NOT be included in your half-yearly reporting to NCB in future.

Thomas Olorenshaw

Thomas has been with NCB since August 2007. He is a passionate vocalist: He is a singer in a six-piece vocal group and also conducts a mixed rhythmic choir.

At work the spreadsheet Excel is definitely one of his passions.

Pia Norén

Pia has been a member of NCB's staff for 27 years now. During the last four years she has worked in our department for "Standard Agreements".

Kayak paddling is one of her frequent leisure time activities – and during winter you can find her on a red or black piste.

OutNow

The Calendar

- **9 February 2009**
deadline for returning you sales report

Do you know ...

- © that the latest invention is rental DVDs that you don't have to return because they become self-destructive after 2 x 24 hours.
- © that although 2008 was a record year for legal music downloads, 95% of all downloads were still illegal (source: IFPI's "Digital Music Report").
- © that the sale of downloaded albums is growing more rapidly than downloaded tracks – 36% against 24%.
- © that the Danish TDC Play agreement is held up as one of the most successful business models according to the IFPI report.
